A Community Forum on  
**Housing  
Concerns**

Please join with neighbors and citizens throughout Bellingham to discuss concerns about affordable housing, zoning, protection of single-family neighborhoods, quality of life issues, and housing options for today and into the future.

In an atmosphere of a true “Town Hall” forum, we will listen to one another respectfully and further the dialogue to safeguard our communities, protect the heritage and character of our historic single family neighborhoods, and address the issues of affordability and livability here in Bellingham.
